## Profile

Goal-driven Frontend Development student graduating in spring 2026, with a strong foundation in JavaScript, HTML, and CSS. Known for a structured way of working, fast learning ability, and a strong interest in solving problems and building clear, user-friendly interfaces. With a background in architecture and design, I am used to handling complex requirements, structuring information, and translating business needs into functional frontend solutions.

## Education

### Frontend Developer (*ongoing*)

Nackademin, Stockholm | 2025–2026

Education focused on modern frontend development and UX/UI, responsive, and user-friendly web applications. The program follows agile working methods with a strong emphasis on collaboration, problem-solving, and code quality, preparing students to work with complex requirements and data-driven interfaces in cross-functional teams.
